Application Pathways

There are two pathways to apply for the CBHCM credential: the Standard pathway and the Provisional/Upgrade pathway.

Standard: for applicants who have completed all requirements prior to application.

Provisional/Upgrade: For applicants who have completed training and need to fulfill 2,000 hours of supervised experience, a provisional credential is available. This credential is issued after meeting the training and testing requirements and is valid for 12 months, providing time to complete the required work experience. Once the 2,000 hours are completed, the applicant may apply to upgrade to a full credential. The upgrade application must include documentation of work experience, supervision and letters of recommendation.

**This document is for applicants completing the
STANDARD APPLICATION PATHWAY.**

The Application Process

Step 1: Creating and Accessing Your FCB Account

Before applying for the CBHCM credential, you must have an FCB online account. You can create or access your FCB account and find the CBHCM credential applications on the website flcertificationboard.org.

Step 2: Understanding the Credentialing Process

The process of applying for the CBHCM credential involves several steps:

Create or Access an FCB Account: You need an FCB account to access the CBHCM online applications.

Complete an Online Application: Start by filling out the online application to provide initial information about yourself; note that this does not constitute the complete application.

Upload Training Verification Documents: Attach all required documents to your application.

Download and Distribute Required Forms: Obtain necessary forms from the FCB website and distribute them to the appropriate individuals who must complete and submit them on your behalf.

Monitor Your Email and FCB Account: Regularly check for emails from your assigned Certification Specialist and for automatically generated system emails. Log in to your FCB account frequently and respond promptly to any inquiries or required actions to move your application process forward.

After your account, online application, and supporting documents are approved by FCB, you will be eligible to take the CBHCM examination. Upon passing the exam, FCB will issue your CBHCM credential.

Step 3: Connecting with Your Certification Specialist

After you submit the online application and fee, a Certification Specialist will be assigned to you. This specialist will serve as your primary point of contact throughout the credentialing process.

You should receive an email from your assigned Certification Specialist within 30 business days after your application submission and approval. Email is the primary means of communication; make sure to regularly check your inbox for messages from your Certification Specialist and for automatically generated system emails. These emails will instruct you to log into your account, view updates, and perform any necessary actions.

If you need immediate assistance or prefer to speak directly, you may also call the office to speak with your Certification Specialist.

Timeframes

Certification Specialists will notify applicants of the results of the initial application review within 30 days of receiving a complete, paid application. The time needed to process an application varies based on the current workload and the quality of the supporting documents submitted. Applicants have up to 12 months from the date of application acceptance to obtain their credential, including passing any required exams. If needed, a continuation fee can be paid to extend the processing period by an additional 12 months.
