

Registered Resiliency Advocate (RRA) REQUIREMENTS

Resiliency is “the process of adapting well in the face of adversity, trauma, tragedy, threats, or significant sources of stress.”¹

The **Registered Resiliency Advocate (RRA) Credential** is a stand-alone credential focused on a single skill relevant to many roles involving work with children and youth. Resiliency support is important for professionals, parents, caregivers, volunteers, and paraprofessionals alike. A Registered Resiliency Advocate has the knowledge and skills to help young people build resiliency and thrive despite their life challenges.

Most RRA applicants work or volunteer with a local school system, after school program, church group, Boys & Girls club, sports team, or other child and youth organization. To receive the RRA credential, applicants must fulfill requirements for training and supervised paid or volunteer work experience. The credential may be renewed every two years if annual continuing education requirements have been met and a renewal fee is paid.

This document describes the requirements and application process for the RRA credential and its renewal. The FCB general certification policies and procedures, as well as the FCB Code of Ethical and Professional Conduct, are posted on the FCB website at www.flcertificationboard.org.

Disclaimer: The RRA is not a clinical credential; the scope of practice does not entitle credentialed individuals to engage in prevention, counseling, treatment, or similar clinical services, or to establish an independent resiliency advocacy practice.
