Master's Level Certified Addiction Professional (MCAP)

LICENSED PROFESSIONAL APPLICATION PATHWAY
Requirements and Application Process

The FCB is pleased to offer the Master's Level Certified Addiction Professional (MCAP) credential.

The MCAP is an advanced practice credential for individuals working in a licensed substance abuse disorder treatment program in Florida. The MCAP designates competency in the domains of:

- Clinical Evaluation
- Treatment Planning
- Counseling
- Case Management and Referral
- Client, Family, and Community Education
- Documentation
- Clinical Supervision
- Professional Responsibilities

Individuals holding the MCAP are qualified professionals under Chapter 397, Florida Statutes. The MCAP credential meets the requirements for a Master's Level CAP who may make substance use disorder diagnoses in programs billed under Florida's State Medicaid Plan.

The MCAP does not allow for independent practice. MCAPs are authorized to work in licensed substance use disorder treatment agencies or community mental health centers.

This document outlines MCAP standards, requirements, application policies, and procedures. Additional policies can be found on the FCB website and in the FCB Candidate Guides.

Application Pathways

There are two pathways to apply for the MCAP credential: the Standard pathway and the Licensed Professional pathway.

<u>Standard</u>: For applicants who do not hold an eligible license from the state of Florida.

<u>Licensed Professional</u>: Individuals who hold an eligible license can apply for the MCAP through a shortened process that recognizes competency indicators already demonstrated as part of the licensure process.

This document is for applicants completing the
LICENSED PROFESSIONAL APPLICATION PATHWAY.

The Application Process

Step 1: Creating and Accessing Your FCB Account

Before applying for the MCAP credential, you must have an FCB online account. You can create or access your FCB account and find the MCAP credential applications on the website flcertificationboard.org.

Step 2: Understanding the Credentialing Process

The process of applying for the MCAP credential involves several steps:

Create or Access an FCB Account: You need an FCB account to access the MCAP online applications.

Complete an Online Application: Start by filling out the online application to provide initial information about yourself; note that this does not constitute the complete application.

Upload Training Verification Documents: Attach all required documents to your application.

Download and Distribute Required Forms: Obtain necessary forms from the FCB website and distribute them to the appropriate individuals who must complete and submit them on your behalf.

Monitor Your Email and FCB Account: Regularly check for emails from your assigned Certification Specialist and for automatically generated system emails. Log in to your FCB account frequently and respond promptly to any inquiries or required actions to move your application process forward.

After your account, online application, and supporting documents are approved by FCB, you will be eligible to take the MCAP examination. Upon passing the exam, FCB will issue your MCAP credential.

Step 3: Connecting with Your Certification Specialist

After you submit the online application and fee, a Certification Specialist will be assigned to you. This specialist will serve as your primary point of contact throughout the credentialing process.

You should receive an email from your assigned Certification Specialist within 30 business days after your application submission and approval. Email is the primary means of communication; make sure to regularly check your inbox for messages from your Certification Specialist and for automatically generated system emails. These emails will instruct you to log into your account, view updates, and perform any necessary actions.

If you need immediate assistance or prefer to speak directly, you may also call the office to speak with your Certification Specialist.

Timeframes

Certification Specialists will notify applicants of the results of the initial application review within 30 days of receiving a complete, paid application. The time needed to process an application varies based on the current workload and the quality of the supporting documents submitted. Applicants have up to 12 months from the date of application acceptance to obtain their credential, including passing any required exams. If needed, a continuation fee can be paid to extend the processing period by an additional 12 months.

MCAP EXAM Registration, Exam Overview, Scoring, and Retesting

Registration Process

You may register for the MCAP exam only after the Board has approved all components of your application and supporting documentation. Once approved, you will receive a system-generated email confirming that you are eligible to register for the exam.

Your assigned Certification Specialist will assist you throughout the registration process. They will provide you with two important documents:

- **Exam Confidentiality Agreement**

After you complete these documents, they will be uploaded to your application record. The Exam Pre-Registration Form will also be sent to the Board's Testing Unit.

Next, you will receive an email from the Testing Unit with instructions on how to complete your exam registration online. You will:

1. Select a test site.

2. Click the provided link to access their testing calendar.

3. Choose your preferred test date and time.

4. Pay the **proctoring fee** (note: this fee is paid directly to the test site via the registration system; the FCB does not collect this fee).

Bring a valid government-issued photo ID to the test site. Your name on the ID must match exactly with the name used during exam registration. If there is a mismatch, you will be denied entry and will need to reschedule.

- You will **not** be charged a second exam fee.

- However, the **test site may charge another proctoring fee**.

If you need to reschedule your exam, contact the Board at least **three business days** before your scheduled test date. The Board will assist you with the rescheduling process.

- You must request a retest **before the 12-month application period expires**. If you do not, your record will be closed, and a continuation fee will be required to reopen it.

MCAP Credential Award, Maintenance, and Renewal

The MCAP credential is awarded when a passing score on the MCAP exam is entered into the certification database. To maintain certification, you must meet the maintenance and renewal requirements detailed in Table 3.

Table 3: Credential Award, Maintenance, and Renewal Requirements

Topic	Minimum Requirement
Credential Award	The MCAP credential is issued for a one-year period. Since credentials are issued throughout the year, the initial expiration date may be slightly more or less than a full year from the issue date. After the first renewal, the credential will expire annually on June 30th.
Ethical Conduct	Uphold the FCB Code of Ethical and Professional Conduct and comply with reporting, investigation, and disciplinary procedures.
Continuing Education	Twenty hours (20) of continuing education are required each renewal and must be submitted to the FCB during the renewal period. The training must be relevant to at least one of the MCAP performance domains. CE credits or hours must be non-repetitive, meaning the same course cannot be counted more than once during each credentialing period, even if it is taken annually.
Renewal	Timely renewal requires submitting an online renewal application, paying the renewal fee, and confirming compliance with continuing education requirements. The credential expires annually on June 30th. A 30-day grace period is allowed for late payments, but any renewal submitted in April must include CE documentation. Credentials not renewed by August 1st will be placed in inactive status. To reactivate or reinstate an inactive credential, applicants must contact the FCB directly.
