Licensed Professional: individuals who hold an eligible license can apply for the MCAP through a shortened process that recognizes competency indicators already demonstrated as part of the licensure process.

**This document is for applicants completing the  
STANDARD APPLICATION PATHWAY.**

## The Application Process

### Step 1: Creating and Accessing Your FCB Account

Before applying for the MCAP credential, you must have an FCB online account. You can create or access your FCB account and find the MCAP credential applications on the website [flcertificationboard.org](http://flcertificationboard.org).

### Step 2: Understanding the Credentialing Process

The process of applying for the MCAP credential involves several steps:

**Create or Access an FCB Account:** You need an FCB account to access the MCAP online applications.

**Complete an Online Application:** Start by filling out the online application to provide initial information about yourself; note that this does not constitute the complete application.

**Upload Training Verification Documents:** Attach all required documents to your application.

**Download and Distribute Required Forms:** Obtain necessary forms from the FCB website and distribute them to the appropriate individuals who must complete and submit them on your behalf.

**Monitor Your Email and FCB Account:** Regularly check for emails from your assigned Certification Specialist and for automatically generated system emails. Log in to your FCB account frequently and respond promptly to any inquiries or required actions to move your application process forward.

After your account, online application, and supporting documents are approved by FCB, you will be eligible to take the MCAP examination. Upon passing the exam, FCB will issue your MCAP credential.

### Step 3: Connecting with Your Certification Specialist

After you submit the online application and fee, a Certification Specialist will be assigned to you. This specialist will serve as your primary point of contact throughout the credentialing process.

You should receive an email from your assigned Certification Specialist within 30 business days after your application submission and approval. Email is the primary means of communication; make sure to regularly check your inbox for messages from your Certification Specialist and for automatically generated system emails. These emails will instruct you to log into your account, view updates, and perform any necessary actions.

If you need immediate assistance or prefer to speak directly, you may also call the office to speak with your Certification Specialist.

### Timeframes

Certification Specialists will notify applicants of the results of the initial application review within 30 days of receiving a complete, paid application. The time needed to process an application varies based on the current workload and the quality of the supporting documents submitted. Applicants have up to 12 months from the date of application acceptance to obtain their credential, including passing any required exams. If needed, a continuation fee can be paid to extend the processing period by an additional 12 months.
